

Traditional
RO Water

Who we are

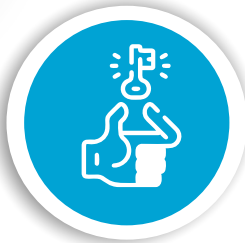

We are a leading manufacturer of **advanced water purification systems**, delivering **end-to-end solutions for industrial, commercial, and institutional needs**. With years of expertise, we specialize in turnkey projects, offering quality, durability, and innovation in every system.

Our Mission

To provide
**Safe, Sustainable,
and Reliable
water treatment
solutions for a
Healthier tomorrow.**

Our Values

Customer
Satisfaction

Continuous
Innovation

Commitment
to Quality

Sustainable
Technology

Industries We Serve

Pharmaceuticals & Healthcare

All Types of Industries

Hotels, Resorts & Restaurants

Schools & Colleges

Hospitals & Clinics

Residential Projects & Communities

Petrol Pumps

Airports & Railway Station

Advanced Treatment Solutions

Stainless Steel Turnkey Projects (ISI Standards)

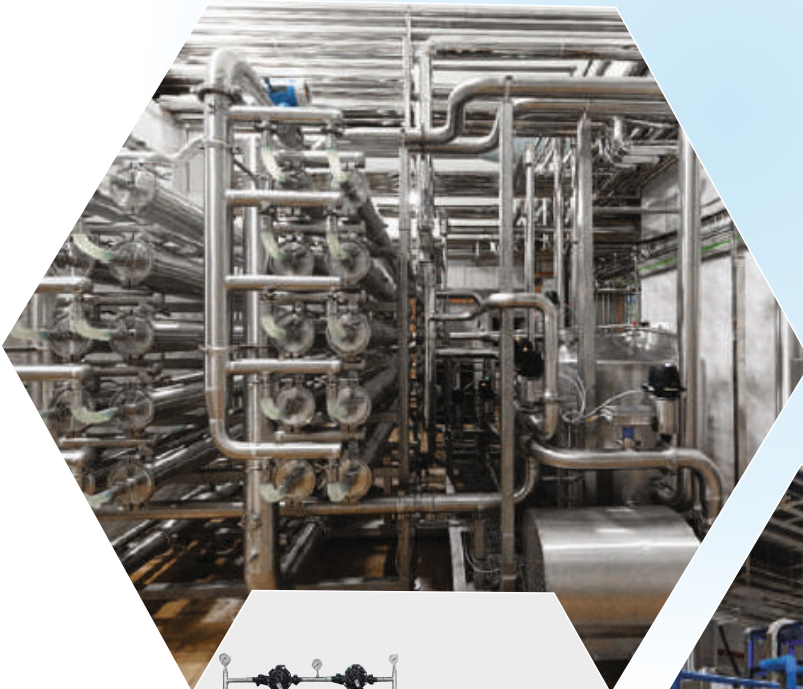

Capacity Range
2000 to 12000 LPH
RO Plants, meeting
ISI norms.

Applications:

Industrial Water Supply
Large-Scale Drinking
Water Projects|
Institutional Requirements

Key Features:

- Stainless Steel Construction
- Robust Engineering for Long Life
- Energy Efficient Systems
- Fully Automated Operation

FRP RO Plants

Lightweight, cost-effective,
and efficient for medium-scale operations.

Commercial RO System

Capacity : 25/50/70/ 150 lph water
Pump : 150 GPD
Membrane : 100 GPD
Bowl : 10" /20"x0.5"
Power Supply : SMPS 24 v
Pressure Guage : 0 to 7 kg
Working up to 2000 TDS
Maximum Cycle 3 to 4 Hours per day

Softner Plants

Capacity : 100 to 1000 ltr per day
Type : FRP Single Vessels
Working : upto 2000 PPM
Operating : Manual & Auto
Media : Resin

Dual Media Filter

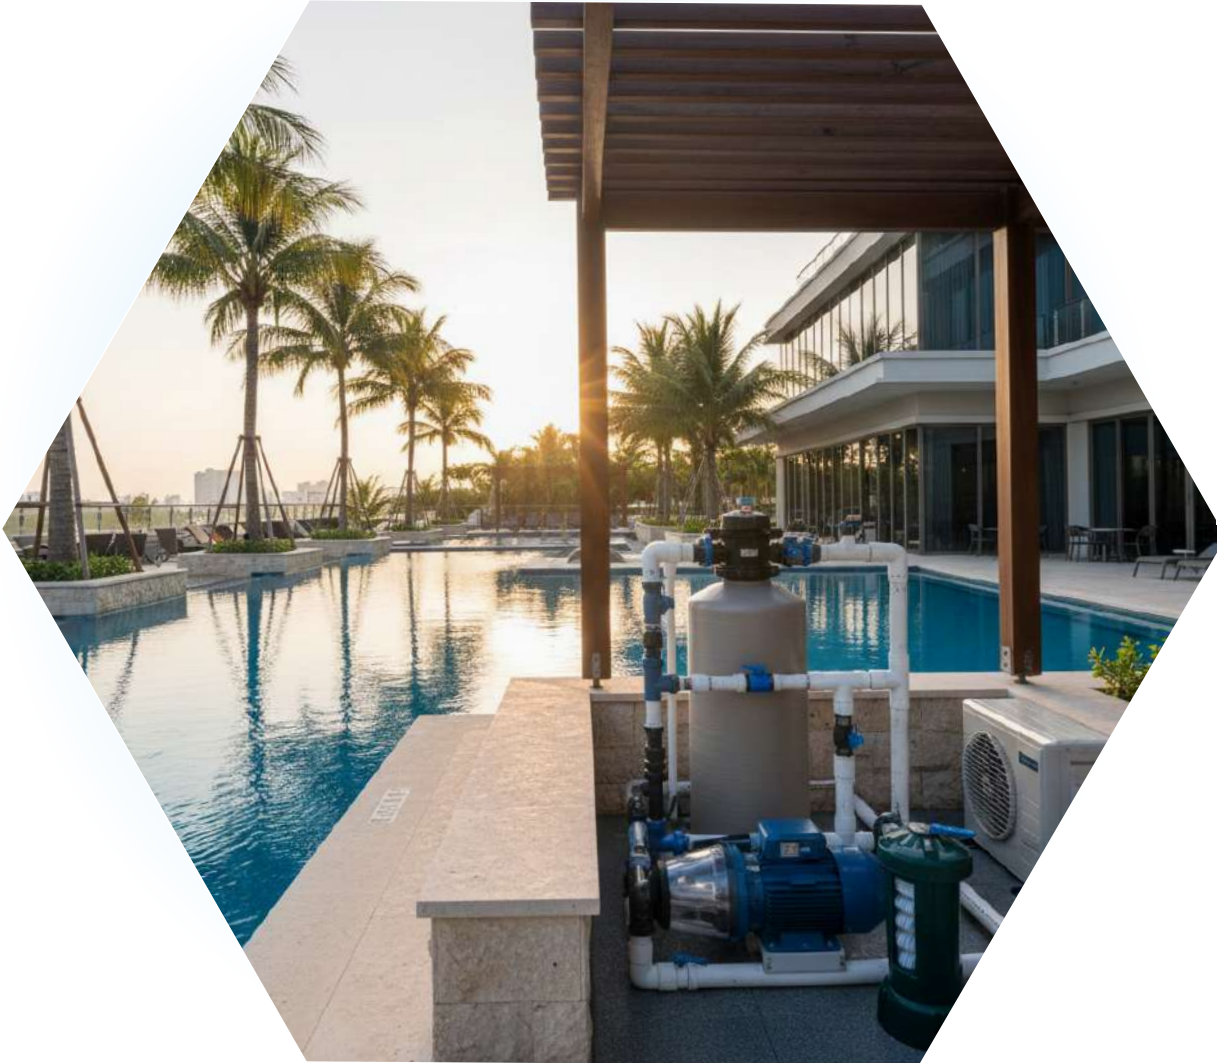

Flow Rate : 1mm to 20mm
Type : FRP Double Vessels
Remove : Suspended Sand & Smell
Operating : Manual & Auto

DM Plant

Capacity : 100 to 10 000 ltr per day
Type : FRP Durable Vessels
Working : Upto 2000 PPM
Productivity : < 10 ppm
Operation : Manual & Auto

Swimming Pool Filtration Plant and Its Part

RFC Bottling Machines

Reliable, hygienic, and high-speed filling & capping solutions

Bottle Blow Mould Machines

High-performance RO systems designed for heavy-duty applications.

Pouch Packing Machines

Sealed, hygienic, and economical solutions for water pouch packaging.

SS Jar Washing Machines

High-speed, automatic cleaning for reusable jars.

Water ATM Machine

Water Coolers

Online Chillers

Instant cooling solutions for commercial and Institutional use.

Composite MSRL, FRP & SS Vessel

Capacity : 100 to 1000 ltr per day
Type : FRP Single Vessels
Working : upto 2000 PPM
Operating : Manual & Auto
Media : Resin

RO Membrane

- Size : 25x40/ 40x40/ 80x40
Type : Thin Film Composite/
Ultra Filtration
Purpose : Industrial Brakish Water
& Sea Water
Purpose : Industrial Brakish Water

FRP Pressure Tube Membrane Housing

- Housing Size : 1/2/3/4 /5 Element
Suitable For Membrane : 25x40/40x60/ 80x40
Type : Side Port & End Port

FRP Filter Housing BAG Filter Assembly

- Size :10"/20 " Slim & Jumbo
Cartridge Size : 20x2.5"/4.5"
Types of Cartridge : PP to Wound

SS FILTER Housing BAG Filter Assembly

- Size :10"/20 " Slim & Jumbo
Cartridge Size : 20x2.5"/4.5"
Types of Cartridge : PP to Wound

Micron Cartridge Filter

Size :20"/30 " Slim & Jumbo
Cartridge Size : 20x2.5"/4.5"
Types of Cartridge : PP to Wound

Bag Filter

Size :10"/20 " Slim & Jumbo
Types of Bag : PP
Micron : 1 to 5

PP Sediment/ Spun Filter

Cartridge Size : 20 x 2.5"/4.0"/4.5"/
Types of Cartridge : PP to Wound
Micron : 1 to5

Wound Cartridge

Size : 10"/20 "/ 30 " Slim & Jumbo
Cartridge Size : 20x2.5"/4.5"
Micron : 1 to5

Chemicals

Antiscalan Dosing Chemical
Ph Booster Chemical
D- Chlorination Chemical
Membrane Wash Chemical
Cooling Tower Chemical
Pkg : 5/10/25 kg

Vertical Multistage Centrifugal Pump

Storage : 2/3/5/8/10/12/16
 Power : Single /Three Phase
 Operating Pressure : 6 kg to 20 kg
 Flow : 1000 lph to 20,000 lph
 HP : 1.5 to 15
 MOC : SS 304 /336

Raw Water Pumps

HP : 0.5 to 7.5
 MOC : CI /55
 Power : Single /Three phase
 Type : Monoblock /Openwell / Centrifugal
 Flow : 1000 Lph to 20,000 lph
 Operating Pressure : 2 kg to 8 Kg

Automatic Electronic Digital Dosing Pump

Capacity : 6 to 12 lph

Mutliple Valve (Manual & Full Auto)

Size : 20/25/40/nb
 Filter & Softener
 Top Mounted and side mounted

UV System

Capacity : 1m' to 10 m'

Power Supply : AC

Watt : 10/20/30/40

Length : 1/2/3/4 ft

Ozone System

Capacity : 5 gms to 20 gms

Power Supply : AC

Body : SS

Distribution System

Type : Single /Multi Stammer

Flow Rate : 5m' to 18 m'

Material : uPVC/ cPVC

PLC/RO Control Panel

Power : Single /Three Phase

Type : Manual /Fully Automatic

HP : 5 to 20

Pressure Guage

Pressure : 0 to 7 kg /0 to 31 kg

Type : Back connection & Button Connection

Dial Size : 2'/2.5'/ 5"

Rota Meter /Flow Meter

Type : Panel Mount / On line
Range : 20 to 200/500/660/ 1200
2400/3600/4800/6000/
8000/10000 lph
Model : Round /Square

SS Storage Water Tank

Capacity : 1000 to 6000 ltr
Material : SS3 04/316

Filter Media & Resin

Send Pebbles, Granuals, Activated Carbon,
Resin For Softner, Resin for DMAtion /
cat ION Mixed Base

Accessories

Soloneid Valve

HP Switch

LP Switch
